CATALOGUE 2011/2012_

Trodat products are truly original:
35 years ago, the first plastic self-inking stamp was invented with the Trodat Printy. Since then, almost 200 million have been sold all over the world. Each year sees the arrival of new innovations such as the Multi Color Impression, the first personalised multi-colour impression, or the Trodat Mobile Printy, the first clean, single-handed pocket stamp.

Continuous developments in staff, processes and materials ensure high standards of quality at Trodat. You can be sure that you are getting only the best stamp products for your needs.

Continuity, trust and innovation also characterise the cooperation of Trodat with its sales partners – in 170 countries around the globe.

THE 1ST CLIMATE-NEUTRAL STAMP
CONFIRMED BY
ClimatePartner

CATALOGUE 2011/2012

TRODAT'S YEARS OF SERVICE TO THE ENVIRONMENT HAVE REACHED A NEW LEVEL:

THE FIRST CLIMATE-NEUTRAL STAMP!

ORIGINAL
PRINTY 4.0
CO_2 min*

AS STANDARD. ONLY BY TRODAT.

”IMITATION WELCOME“

Trodat is causing a sensation: The Original Trodat Printy 4.0 is the world's first climate-neutral stamp. World Wide Fund for Nature (WWF®) CEO in Austria, Dr. Hildegard Aichberger, explains what CO_2 savings and climate neutrality involve during a conversation with Markus Würcher, Managing Director at Trodat GmbH. Trodat has been an official cooperation partner of the Austrian WWF® since July 2010.

MW: Dr. Aichberger, what developments do you see in the area of CO_2 footprint and CO_2 neutrality in the economy?

HA: Climate change represents a unique challenge for businesses. The economic costs of climate change are enormous. CO_2 minimising business decisions are therefore important and at the same time a big chance for the first businesses that make use of them.

MW: Where does this focus on the subject of CO_2 come from?

Dr. Hildegard Aichberger (WWF® Austria) talking to Markus Würcher (Trodat GmbH).

HA: At the Climate Change Conference in Copenhagen, it was agreed that global warming must be restricted to 2 degrees Celsius above the level at the beginning of industrialisation. A CO_2-free economy must be targeted by 2050 to achieve this goal. We must move away from fossil energy sources. To do that, businesses must act accordingly, and pioneers in this area are to be especially singled out.
The way to CO_2 neutrality is especially important to us. Thus, when dealing with CO_2 emissions, this should always mean, first and foremost, avoidance, exhausting options for reduction, and only then neutralising the unavoidable emissions. Since no production process can take place without energy consumption, residual CO_2 emissions are compensated for by climate-relieving measures in the final step.

MW: You address the subject of CO_2 neutrality. The accompanying emissions trading is sometimes associated with "ransom" and "sale of indulgences". What is your opinion about that?

HA: The basic idea of compensation—also referred to as offsetting—is to compensate for the emission of a specific quantity of greenhouse gas that cannot be avoided, with climate protection measures at another location. And here the emphasis lies on "cannot be avoided." As already mentioned, it is essential that all CO_2 avoidance potentials first be fully exhausted, and only then the rest compensated for.
If we think up to 2050, then we must now reorganise our processes step by step to arrive at the goal of a CO_2-free economy. Until then, we must exploit every potential. That also means, among other things, that the "northern hemisphere" must support the "southern hemisphere" through technology transfers.

MW: Can you name an example?

HA: The industrialised nations implement legal regulations based on their reduction goals. Therefore, for instance, an industrial firm in Europe must invest in a filter system anyway due to the law and cannot claim any money from the CO_2 certificate trade.
Therefore, the WWF® only supports so-called "Gold Standard projects" in the "southern hemisphere". These must adhere to strict conditions and ensure that climate protection is the first priority. At the same time, only projects that would not otherwise be realised are promoted.

MW: Trodat has occupied itself with the subject of the environment for many years. We have been seeing strong demand for "green products" for about three years, especially in the retail market. As with the subject of "organic", it has become difficult for consumers to find their way in the thicket of eco-labelling, recycled contents, and green-coloured products. Is our decision to minimise CO_2 emissions the right one for our line of business?

HA: Yes, quite clearly. There is a broad consensus concerning the subject of climate and CO_2. Naturally biodiversity and resource use are also important, and should not be forgotten. But it always comes back to the core business. Since material usage and energy consumption are important elements at Trodat, the CO_2 approach selected is certainly the right one.

MW: We go the way of CO_2 reduction and climate-neutrality with complete conviction. We offer "Eco-friendly as standard" to show our commitment to the environment. You see a lot of "greenwashing" on the market. For instance, products are simply coloured green, or only peripheral product lines are offered as green products. We have made a commitment: our main business must really be green. The Original Trodat Printy 4.0 is incredibly small, amazingly light, and made of up to 65%* recycled plastic. This helps to save valuable resources and minimise its CO_2 footprint. Unavoidable CO_2 emissions are compensated for through Gold Standard climate protection projects. What is your opinion about that?

Green light from WWF® for new stamp generation.

HA: There is "climate protection" hype in the market, and everyone wants to jump on this train. At Trodat, you see how corporate social responsibility works: Trodat leaves no stone unturned and relates its activities to the common value crea-tion chain. Thus, Trodat really does set new standards in that it first reduces, and only compensates for the unavoidable CO_2 footprint in the very last step. And they do it in a responsible way in that they invest exclusively in Gold Standard projects recommended by the WWF®. You see that Trodat is honestly interested in promoting sustainable development. That is to say, the financial outlay for Gold Standard is higher than with investments in other projects. The willingness to bear this additional burden confirms that Trodat is acting from conviction.

MW: Trodat is now bringing the first climate-neutral stamp to market. The consistent construction and material usage result in a CO_2 saving of 49%. How do you view a CO_2 saving of this scale?

HA: Trodat really seems to have succeeded with a great technical performance here. This development meets the WWF® policy in regard to raw material use and emissions: first avoid, then reduce, and only compensate in the last step. And the enormous CO_2 saving relative to predecessor products is a result deserving a lot of respect. Most of all, Trodat has not relied on just one of its own product lines here, but has instituted climate neutrality for its flagship product. I see that the CO_2 footprint analysis was conducted by Climate Partner. It is very positive that Trodat has drawn on a third, independent partner for that.

MW: We are very excited to see how the stamp industry will react.

HA: It would be desirable if the industry would pull its weight here. Climate protection concerns us all. All businesses are asked to make their contribution to achieving the goal of a CO_2-free economy.

MW: For the first time in Trodat's history, we are happy to say: please imitate us! As the market leader we are able to offer the WWF® the most comprehensive means to deliver their message. Our network of subsidiaries, distributors and customers ensures that we can communicate this green message to the widest audience possible.

HA: Then we can hope that the industry will follow suit.

MW: Dr. Aichberger, I thank you very much for the conversation.

TRODAT AND THE ENVIRONMENT

ENVIRONMENTAL PROTECTION COMES NATURALLY

Trodat has been firmly committed to a holistic approach towards environmental protection for decades. The Original Printy 4.0 in particular is a shining example of our accumulated expertise.

CARBON-SAVING

The Original Printy 4.0 makes the greatest carbon-saving thanks to a significant reduction in both size and weight while also now containing up to 65%* recycled plastic compared to the standard product.

THE ROUTE TO BECOMING CLIMATE-NEUTRAL

The original printy 4.0 saves up to 49%* CO_2 compared to its predecessor. The unavoidable carbon footprint is offset by investments made in climate protection projects specifically recommended by the WWF®.

MONITORING AND CERTIFICATION BY CLIMATE PARTNER

The independent company Climate Partner, which also promotes suitable climate protection projects (see above), measures and certifies the actual reduction in CO_2 achieved.

THE ORIGINAL PRINTY 4.0: THE FIRST CLIMATE-NEUTRAL STAMP

OUR ROUTE TO BECOMING CLIMATE-NEUTRAL

THE TRODAT

ADDED VALUE PRINCIPLE_

The great desire to do things better is the driving force behind our constant search for innovations. Helping our partners to become market leaders is the objective of every division of the Trodat Group. Original Trodat products simply give our customer more.
More possibilities. More differentiation. More success.

AND: MORE REASONS TO BE HAPPY!

This is because the new Trodat added value system rewards loyalty and makes Trodat partners more attractive for stamp purchasers. Each of the individual system modules already enjoys a significant market position in their own right. However, their unique added value only truly reveals itself in their combined use. The Trodat added value system is more than the sum of its parts.

1. SUPERIOR STAMP COMPONENTS – Trodat Professional, Printy, Mobile Printy
2. BEST PRODUCTION EQUIPMENT – Trotec Speedy laser engraving equipment, Rayjet
3. THE LATEST SALES METHODS – uTypia Consumer web-Shop Software
> MULTI-COLOUR IMPRESSIONS – Multi Color Impression

Combining these products and services generates unique Trodat customer benefits.
Enthusiastic customers are the best basis for sales success.
This makes the stamp business fun.

1. TRODAT STAMP PRODUCTS_ CLEARLY SUPERIOR

Modern design, exceptional functionality and the best materials make each Trodat stamp an original.
The **Trodat Professional** - the office stamp for frequent and precise application.
The new **Trodat Printy 4.0** – the world's first carbon-neutral stamp; smaller, simpler and constructed from a high percentage of recycled plastic. And the **Trodat Mobile Printy** – the cleanest pocket stamp there has ever been, with its ingenious single-handed operation. At the same time, you as a specialist stamp dealer, are able to meet your customers' exact wishes in terms of individuality and differentiation. This is because the **Multi Color Impression** allows you to make each Trodat stamp an exclusive, personalised colour stamp.

Go to page 12 and visit **www.trodat.net** to find out more about Original Trodat stamps.

2. TROTEC LASER_ CUTTING-EDGE STAMP TECHNOLOGY

Trodat's subsidiary company Trotec GmbH is a leading global manufacturer of laser-engraving equipment for stamp manufacturers, engravers and sign makers. In recent years, the company has also made a name for itself in industrial applications. **Trotec lasers are indispensible for engraving and cutting in an economic, high-quality stamp manufacturing process.**
It was also Trotec which developed the production of Multi Color Impressions with laser technology and introduced it to the manufacturing process.

Go to page 52 and visit **www.troteclaser.com** to find out more about Trotec.

3. UTYPIA CONSUMER_ NEW WEB-SHOP SOLUTIONS

The online shop has become one of the most essential distribution channels in the stamp industry. Comprehensive functionality and integration options make the Trodat uTypia internet solution one of the leading pieces of online stamp shop software in the commercial consumer segment.
NEW - the extended uTypia range: **uTypia Consumer** immediately offers a second type of shop, designed specifically for the end user and smaller companies.
These customers focus on the impression itself rather than the stamp equipment.
It takes just four steps for the user to create a new finished stamp.
Modern design, intuitive user guidance and search engine friendliness are included.
Purchasing stamps on-line has never been so simple.

Go to page 68 or visit www.uTypia.com and **www.uTypiasoftware.com** to find out more about uTypia.

> TRODAT MULTI COLOR_ MULTI-COLOUR HAS JUST GOT EASIER

Creating personalised multi-coloured impressions is now easier than ever. New to the range: the **Trotec Multi Color Jet**. From now on you can produce your own multi-coloured stamps **more cost-effectively and more quickly**. The Multi Color Jet is an individual machine which inks the ink cartridges, while the laser engraves the textplates. The Multi Color Jet always gives you a choice of 15 Multi Color inks. Your Multi Color Jet and your Trotec Laser are both connected to the same computer.

Go to page 8 and visit **www.multicolor.trodat.net** to find out more about Trodat Multi Color.

TRODAT INDIVIDUAL COLOUR STAMPS_
BECAUSE LIFE IS COLOURFUL

MULTI COLOR SPECTRUM

trodat®
CREATING ORIGINALS

TRODAT INDIVIDUAL COLOUR STAMPS_

Trodat offers the first stamp to create a good impression immediately with its multiple colours. Personalised Trodat colour stamps are the stars of the stamp world. The impression becomes the calling card of the modern business. Trodat Multi Color Impression is patented and globally unique. Manufactured using laser technology, the ink cartridge and textplate may be reproduced at any time. Exclusively from Trodat.

The new stamp impressions are colourful. Because life is colourful.

THE BENEFITS OF MULTI COLOR IMPRESSION AT A GLANCE_

- **Differentiation.** Meet your customer demands for differentiation and individuality. Select your own colour fields for the impression.
- **Trade Symbol.** Offer your customers unique impressions with colourful symbols and company logos which emphasise their corporate identity.
- **Process security and repeat orders.** The patented Multi Color manufacturing process guarentees the exact colour and shape throughout the production process and for repeat orders, and that of the replacement ink cartridge.
- **Top quality impression.** Your multi-colour impression at the usual perfect level of Trodat quality.
- **Variety of colour.** Include any of the 15 available colours for your impression design.

Colourful impressions create by far the best impression.

MULTI COLOR SPECTRUM

The globally unique Trodat Multi Color Impression technology impresses both the professional world and end users and includes the following features:

ISPA Award 2005 for special innovations

GIFTEXPO Award 2007 for innovation, modernity and user-friendliness

PBS Award 2008 for Multi Color Impression - Multi Color Stamps

COLOR IMPRESSION – THE WAY IT WORKS_

Tried and tested technology:
The Trotec Laser Speedy 100, Speedy 300 or Rayjet series form the technological basis for the production of Trodat Multi Color stamps. Special, un-inked ink cartridges - matching precisely the impression design – are cut by laser to match each of the individual colour fields.

Now new and simplified:
The Multi Color ink cartridge is now inked using the new Trotec Multi Color Jet. Revolutionary: You no longer need to re-tool! All 15 colours are already installed in the Multi Color Jet.

So, while your laser is in the process of engraving the textplates, the Multi Color Jet is already busy inking the ink cartridges. This allows you to produce more of the unique Multi Color stamps quicker and in a more cost effective manner.

One computer - many possibilities
The new Trotec Multi Color Jet is operated using the same PC as you already use to control your Trotec laser.

TAILORMADE_
Individual colour and design requirements are a Multi Color Impression specialty. The text and logo fields can be arranged as required. The resulting fields in the ink cartridge are then inked automatically with the selected colours.

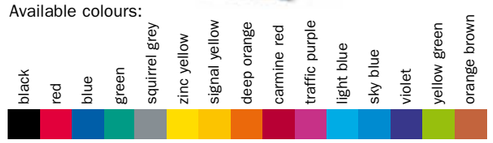
PRECISION_
The laser cuts the ink cartridge with precision and seals the colour fields at the same time. This prevents the contamination of each of the individual colour fields.

QUALITY_
The Multi Color Jet inks each of the individual colour fields with the optimum amount of ink. The result is a set of clean impressions to the usual Trodat level of quality.

MULTI COLOR IMPRESSION INKS_

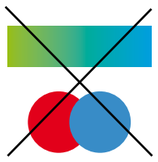
7012 –
available in:
150ml Multi Color Tank*
0,5l / 1l /
5l / 20l bottles.

Available colours:



*Replacement dispenser must be ordered separately

FOR YOUR INFORMATION_



A minimum distance of 2.5mm between colour fields and a minimum colour field size of 8mm x 8mm are required.
Overlapping colours and colour blends are NOT possible

MULTI COLOR COMPATIBLE_

The majority of models in the Trodat Professional, Trodat Printy and Trodat Mobile Printy ranges are compatible with Multi Color Impression. You will find appropriate instructions with every product.

STAMPS FOR AT HOME AND ON THE MOVE_

ORIGINAL PRINTY 4.0
THE FIRST CLIMATE-NEUTRAL STAMP

ORIGINAL PRINTY 4.0
CO_2 min*

Are you looking for an unbelievably small and amazingly light stamp? Or an environmentally friendly one? Or should your textplate assembly be particularly easy? Forget the “or” and choose the Original Printy 4.0!

1. SIMPLE TEXTPLATE ASSEMBLY
2. 100% CLEAN INK CARTRIDGE REPLACEMENT
3. MINIMISED CARBON FOOTPRINT*
4. CLIMATE-NEUTRAL BY INVESTMENTS MADE IN CLIMATE PROTECTION PROJECTS RECOMMENDED BY THE WWF®
5. CRYSTAL CLEAR VIEWING WINDOW FOR PERFECT ALIGNMENT
6. UNBELIEVABLY SMALL AND LIGHT

* Visit www.environment.trodat.net to find out more about the reduced carbon footprint of the Original Printy 4.0.

MULTI COLOR IMPRESSION

TRODAT MOBILE PRINTY_ SIMPLE. STEADY. CLEAN.

The Mobile Printy is the unique pocket stamp which can be operated with just one hand.

The design and innovative functions make the Mobile Printy more than a useful accessory. It is perfectly designed for all applications on the move or at home.

SIMPLE_
Intelligent technology allows safe and fast stamping with only one hand: "Click” and ready.

STEADY_
The unique pyramid shape with its central stabiliser ensures a stable and safe 5-point positioning for even distribution of pressure on the textplate and a clean impression.

CLEAN_
The recessed text plate protects both the user and the stamp from getting dirty when stamping or replacing a pad.

MULTI COLOR IMPRESSION

WE ASKED – YOU DECIDED

Numerous surveys of rubber stamp makers were carried out to identify ‘What do you expect from the ideal stamp?’ The valuable results have had a significant impact on the development of the Original Printy 4.0.

OUR RESPONSES TO YOUR REQUESTS:

1. THE EASIEST POSSIBLE TEXT PLATE MOUNTING

This is guaranteed by the elevated position of the text plate holder and the alignment grid for securing the text plate.

2. EASILY REMOVABLE INDEX WINDOW

The large recessed grip ensures extra-easy opening. The symmetrical cover snaps into place perfectly – whichever edge is at the front or back.

3. UNBELIEVABLY SMALL AND LIGHT

The Original Printy 4.0 is one of the most compact self-inking stamps in the world.

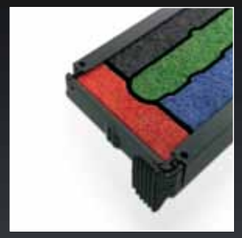
4. EASY TO PERSONALISE

The large printable front side also comes with a white front plate. This provides endless options for logos and individual prints!

WHAT DO YOUR CUSTOMERS WANT TO BUY?

The Original Printy 4.0 is not just about impressing rubber stamp makers. It also needs to sell well. That's why we also asked users what, in their opinion, makes a good stamp. There were some interesting responses. And we incorporated these ideas when we developed the Original Trodat Printy 4.0.

OUR RESPONSES TO CUSTOMER REQUESTS:



1. CLEAN INK CARTRIDGE CHANGE

Special grips avoid the user touching the cartridge insert.

Note: All Trodat stamp colours guarantee impressions which will last for decades.

2. PRECISE POSITIONING

The crystal clear viewing window ensures that the impressions are precisely aligned. And the transparent edges of the base guarantee ultra-precise alignment!

3. UNBELIEVABLY SMALL AND LIGHT

The perfect stamp for on the go, fitting into even the smallest pocket. The innovative IMD technology minimises the chance of scratches and finger prints. For an attractive and sophisticated look which stands the test of time.

4. THE FIRST CLIMATE-NEUTRAL STAMP

The Original Printy 4.0 is not just unbelievably small and light, but also consists of up to 65%* post-consumer recycled plastic. This helps to save valuable resources and up to 49%* CO_2. And investment in climate protection projects recommended by the WWF® compensates for the inevitable CO_2 footprint.

* ECO-black and ECO-grey. Lower percentage for other colours. For more information, see www.environment.trodat.net

IN A NUTSHELL

The Original Printy 4.0 stands for: saving time, space and money. With each individual item. And since it adapts perfectly to the requirements of the customer, this Printy is also a real money-spinner!

ECO-FRIENDLY AS STANDARD

TRODAT MOBILE PRINTY_ TEXT STAMP

SIMPLE. STEADY. CLEAN.

This is how simple it is to describe the Mobile Printy. Innovation and quality are combined behind an attractive design.
Perfect for all applications on the move or in the office.
The Mobile Printy has also achieved an amazing record: over 1 million have been sold in just a single year! There has been real hype surrounding the Mobile Printy around the globe - it was even given an award at Paperworld 2009.

AT HOME AND ON THE MOVE

MOUNTING OF TEXT PLATES_

To attach the text plate, release the stamp mechanism with the ink pad to the right. Remove protective film.

Hold the textplate so that the text shows in reverse. Affix the text plate.

RE-INKING_

A few drops of ink are sufficient for a clear impression.

Do not over-ink the pad!

CHANGING THE REFILL_

It's simple: Unscrew the ball pen in the middle, change the standard refill and screw it together again.

"VIENNA" POCKET STAMP_

9011, 9012

9011 - Max. text plate size: 39mm x 14mm

9012 - Max. text plate size: 54mm x 18mm

TRODAT INK CARTRIDGE

Trodat ink cartridge for Professional, Printy and Mobile Printy are truly high-tech products. Both the pad material and the colour have continued to be perfected through years of research. That is why a Trodat impression functions just as well at a polar ice cap as in a tropical rain forest. Even, consistent colour application with every impression.

no re-inking

clean hands

clean impression

- clean impression, document quality
- precise inking prevents colours running
- no drying out
- all colours are completely non-toxic
- clean change of ink cartridge in no time at all

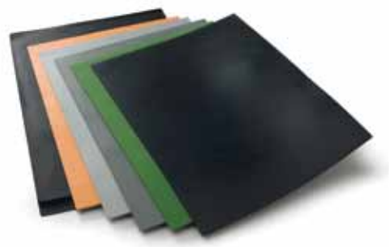
TRODAT PRODUCTION MATERIALS AND MACHINES_

TRODAT LASER RUBBER_

Trodat laser rubber offers the right textplate material for a variety of purposes. For odourless engraving, for high production engraving or for special applications such as stamping or oil-based inks.

Choose from our extensive range of textplate materials. Take advantage of the Trodat range, developed for the most varied stamp application.



TRODAT IDEAL PHOTOPOLYMER_

This will exceed your expectations for flexographic applications. Trodat IDEAL photopolymer is designed for precise reproduction of even the most detailed text plates with optimum exposure time.

TRODAT STAMP INKS_

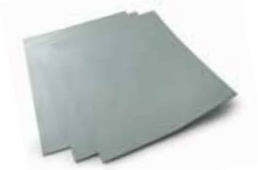
Trodat stamp inks have been developed to fulfil all the most extreme demands, bringing you optimum durability in hot or cold climates or in moist or dry air. Maximum outline sharpness. Rich colour impressions. Indelible ink.

TROTEC LASER TECHNOLOGY_

Trodat's subsidiary company Trotec GmbH is a leading global manufacturer of laser-engraving equipment for stamp manufacturers, engravers and sign makers.
Trotec lasers are indispensible for engraving and cutting in an economic, high-quality stamp manufacturing process.

TRODAT LASER RUBBER_

AERO



Odourless laser rubber

- No odour while engraving
- Up to 62% faster than other odourless laser rubbers
- As fast as standard laser rubber
- Very easy to clean

Sizes: A4/2.3mm Colour: light grey – 850208
A3/2.3mm Colour: light grey – 850208

Packaging
10 pcs

TEMPO

Speed laser rubber

- Up to 21% faster than standard laser rubber

Sizes: A4/2.3mm Colour: orange – 850206
A3/2.3mm Colour: orange - 850206

Packaging
10 pcs

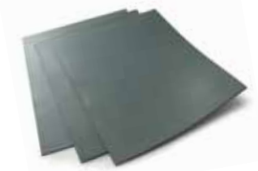
ECO

Ecological laser rubber from natural rubber

Size: A4/2.3mm Colour: green – 850202

Packaging
10 pcs

CLASSICO



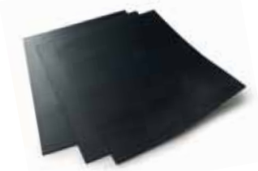
Reliable standard laser rubber

Size: A4/2.3mm or A4/1.5mm (for Goldring)

Colour: grey – 850205

Packaging
10 pcs

OLIO



Oil-resistant laser rubber

- No expansion with oil-based inks

Size: A4/2.3mm Colour: black – 850203

Packaging
10 pcs

MICRO

Laser engravable micropore foam for pre-inked stamps

Size: A4/6mm Colour: black – P800

Packaging
10 pcs

TRODAT IDEAL PHOTOPOLYMER_

Trodat IDEAL photopolymer provides the perfect surface for use with water-based inks as used for stamps or other flexographic applications. Excellent elasticity and resilience are two of the strengths of this photopolymer.

IDEAL i50 RED - PHOTOPOLYMER

The newly developed photopolymer generation IDEAL i50R Red is part of the perfectly balanced TRODAT IDEAL photopolymer programme. The polymer's colour makes your textplate more legible and stands out because of its excellent impression. Ideal for the production of text plates with more detailed characters.

Packaging

1kg, 2kg,
9kg, 200kg

IDEAL i50 - PHOTOPOLYMER

Ideal for the production of text plates with more detailed characters.

Packaging

1kg, 2kg,
9kg, 200kg

IDEAL i40 - PHOTOPOLYMER

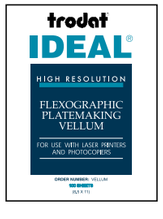
Ideal for the production of text plates with larger characters.

Packaging

1kg, 2kg,
9kg, 200kg

TRODAT IDEAL PHOTOPOLYMER ACCESSORIES_

IDEAL VELLUM A4



Trodat IDEAL VELLUM is perfect for toner uptake with laser printers and copiers. It is very transparent, demonstrates virtually no visible fibres and is therefore suitable for producing perfect negatives. Safely avoids the use of hazardous chemicals.

Packaging

100 pcs

IDEAL DAYLIGHT AQ™ NEGATIVE SYSTEM

AQ-912 NEGATIVE

Trodat IDEAL AQ negative film for direct exposure in photopolymer machines.

Packaging

50 pcs

AQ-ACTIVATOR IDEAL 1L BOTTLE

Water-based liquid activator for cleaning exposed DAYLIGHT AQ film.

Packaging

AQ-ACTIVATOR WASH OUT PLATE
For the protection and stability of DAYLIGHT AQ film during cleaning, rinsing and drying processes.

AQ-SPRAYER
For use with the AQ-ACTIVATOR 1L bottle; can be used repeatedly.

AQ-EXPOSURE FOAM
For the protection of DAYLIGHT AQ-NEGATIVE film during exposure in photopolymer machines.

Packaging

Development of AQ-Negative with the aid of printed vellum in photopolymer machines

Spraying the water-based AQ-ACTIVATOR

Drying

IDEAL COVER FILM CF

Trodat IDEAL CF cover film ensures the separation of photopolymer equipment and the liquid photopolymer and provides an easy draw off from exposed liquid polymer.

Available roll sizes:
27cm x 122m 30cm x 122m
38cm x 122m 41cm x 122m

Packaging

IDEAL DAMMING TAPE DT

This tape provides a dam to keep the poured photopolymer in place over the cover film and negative.

It helps to ensure even and consistent total text plate height.
This disposable foam tape is easy and economical to use.

Packaging

2 pcs

IDEAL “C” SERIES SUBSTRATE

Trodat IDEAL Substrate backing sheets have been developed to provide unprecedented adhesion to the photopolymer.

The substrate also has excellent light diffusion which results in smoother, more consistent backgrounds.

Available sizes:

22.5cm x 30.5cm	26cm x 26cm	27cm x 35.6cm
30.5cm x 36.9cm	30.5cm x 49cm	36.6cm x 53cm

Packaging

50 pcs

IDEAL ILW – LIQUID WASHOUT CONCENTRATE

Trodat IDEAL iLW is a cost-efficient liquid washout concentrate that effectively removes the uncured polymer during the washout stage.

iLW provides excellent results and washout life whether it is used in automatic tank washout systems or hand-washing. This is an important step to producing tack-free plates.

Packaging

Available in 1kg or 9kg containers

IDEAL iBOOSTER

Trodat IDEAL iBooster is a washout additive that extends washout life in all water conditions. This is highly recommended for use when hard water conditions exist.

The iBooster is used in addition to the iLW washout additive.

Packaging

Available in 7.25kg container

IDEAL iDFOAM

Trodat IDEAL iDFoam is a de-foamer that is added to the washout solution to eliminate foaming in spray washout equipment.

Packaging

Available in 7.25kg container

IDEAL IPXC – POST-EXPOSURE ADDITIVE

Trodat IDEAL iPXC is a patented post-exposure additive to prevent possible stickiness on the photopolymer plate.

The product consists of liquid and powder components.

Packaging

Master carton 4kg

TRODAT STAMP INKS_

STAMP PAD INKS

> Stamp pad ink to re-ink your stamp pad.

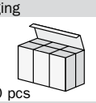
7011 - water based, 28ml

Available in the following colours:
black, blue, red, violet and green

7021 - quick drying, 25ml

Available in the following colours:
black, blue, red, violet, green and white

Packaging



10 pcs

Packaging

TROTEC LASER_

trotec® setting new standards
laser. marking cutting engraving

TROTEC LASER TECHNOLOGY_

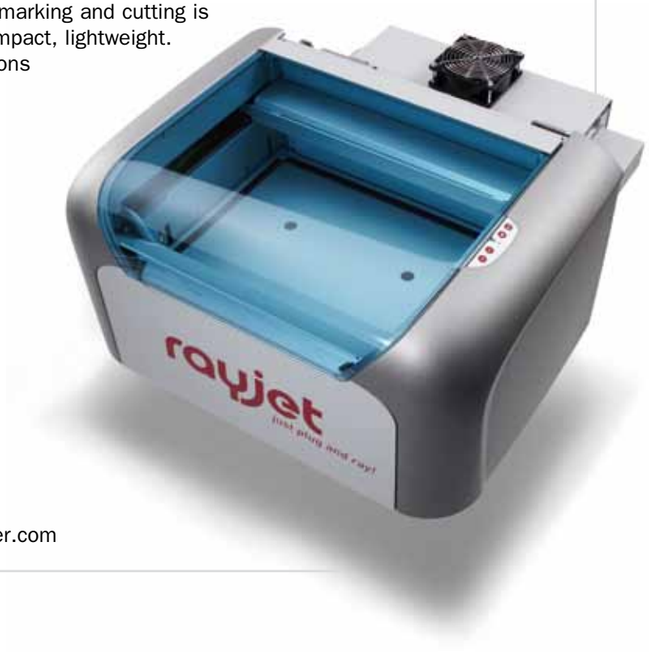
Trotec has a mission to develop the most economic comprehensive total laser machining solution for its customers from the most innovative and widest flat bed laser product range.

For Trotec customers economic means achieving greater profits as a result of new business opportunities or lower manufacturing costs.

RAYJET LASER: DESKTOP LASER FOR ENGRAVING, MARKING AND CUTTING_

With the Rayjet desktop laser, laser engraving, marking and cutting is a fun and creative experience. The Rayjet is compact, lightweight. It is easy to operate and variable financing options are available.

- 30 watt laser output
- Easy to use via the Rayjet Commander Software package
- Great value for money
- RayPack Technology Standard features, such as Laser Pointer, Auto Focus, Programmable Z-axis Quick Change Engraving Table and Versatile Printer Driver software.



www.rayjetlaser.com

SPEEDY 300 FLEXX_

The new Trotec Speedy 300 flexx - more flexibility, more applications, more profit. The new Trotec Speedy 300 flex offers you the highest level of flexibility of all laser systems on the market.

ONE MACHINE - ENDLESS POSSIBLE APPLICATIONS_

The new Trotec Speedy 300 flexx allows you to process all materials for which you previously needed two pieces of equipment. Rubber, wood, plastics, bare metal, anodised aluminium, etc. It combines the well-known Speedy 300 CO2 laser technology with up-to-date fibre laser technology.

TWO MATERIALS - ONE OPERATION_

The unique Flexx function lets you process all materials in just the one work step (e.g. engraving on wood and metal) and therefore save on maintenance or set-up time.

SET IT UP WHENEVER YOU WANT_

Even if you already have a Speedy 300 or Speedy 300 fiber laser, you can set it up with the Flexx function any time you want. You decide when.

Speedy 300 flexx - maxximum flexxibility.

MULTI COLOR JET_

The new Trotec Multi Color Jet - now multi coloured impressions are even easier to produce.

Creating or ordering Multi Color products has just got a lot easier. From now on you can produce your own Multi Color Impression stamps more cost-effectively and more quickly.
The Trotec Laser Speedy 100, Speedy 300 or Rayjet series form the technological basis for the production of Trodat Multi Color stamps.

The new **Multi Colour Jet** is a stand-alone machine which helps you by inking the ink cartridge while the laser engraves the textplates.
The Multi Color Jet always gives you a simultaneous choice of 15 Multi Color inks. Your Multi Color Jet and your Trotec Laser are both operated by the same computer.

OTHER PRODUCTS_

ULTIMARK FLASH STAMPS_
THE EASY WAY TO STAMP

It's that simple with Ultimark pre-inked stamps.
You don't need a separate stamp pad because the ink is in the stamp.
You'll get clean, crisp impressions every time you use your
Ultimark pre-inked stamp. After thousands of impressions,
just re-ink your stamp for thousands more.

ROYAL MARK PRE-INKED STAMPS WITH LASER TECHNOLOGY_
CLEAR IMPRESSIONS MADE EASY

It's that simple with ROYAL MARK Pre-Inked Stamps. You don't need a separate stamp pad because the ink is in the stamp. You'll get clean, crisp impressions every time you use your ROYAL MARK Pre-Inked Stamp. After thousands of impressions, just re-ink your stamp for thousands more. Royal Mark pre-inked stamps are easy, comfortable and convenient to use!

TRODAT CLASSIC_
SIMPLE AND TRADITIONAL

Products from the Classic Line series are stamps that can truly be described as evergreen.

Classic products are used with a separate stamp pad.

TRODAT IDEAL SEAL PRESSES_

Trodat IDEAL seal presses have a unique quality, are easy to handle and are extremely durable. Models M, No.0 and No.1 are also especially impressive in their design. This is what makes them popular with lawyers, notaries, companies, engineers and government offices all over the world.

uTypia INTERNET SOLUTIONS_

E-commerce with uTypia – the right solution for the right target group!

Thanks to the comprehensive functionalities and integration options, uTypia has been THE B2B on-line shop software for many years. In particular, our expertise in integrating it into the e-procurement systems of large companies or reseller shops has helped our many dealers become successful in the field of on-line business.

However, the market has demonstrated that consumers have different needs and requirements to commercial companies. Therefore, uTypia has developed a second type of shop: uTypia Consumer. This solution concentrates specifically on private customers, small companies and the home office. uTypia Consumer has a modern design, the ordering process is very user-friendly and offers many new functionalities. The new shop also places a great deal of emphasis on technical search engine optimisation.

No matter what type of customers you have, uTypia offers the complete package for satisfying the specific needs of your customers across a broad product range.

Which products can you buy on-line using uTypia?

- **All kinds of stamps**
  (Circular stamps, text stamps, date stamps, Multi Color stamps)
- **Engraving products**
  (Signs, awards, cups, ...)
- **Printed matter**
  (Business cards, labels, T-shirts, ...)
- **Personalised marketing material**
  (Mugs, key rings, mouse mats, ...)
- **All types of non-personalised products**

uTypia CONSUMER_

The new user-friendly uTypia shop for consumers.

uTypia BUSINESS_

Company templates simplify the ordering process.

THE ESSENTIAL uTypia PRODUCTS_

uTypia Business
uTypia Business is the one-stop online shop solution specifically for B2B transactions. The many different functionalities facilitate the ordering process for your large commercial customers.
It is possible to offer customer-specific conditions for available products, prices, discounts, delivery and payment conditions. Templates can be produced including the company logo. The shop may also be integrated in other systems such as your end customers' e-procurement systems (SAP, Oracle, Ariba, ...), for example.

uTypia Consumer – NEW!
uTypia Consumer is our new online shop solution specifically designed with the requirements of private customers, small companies and the home office in mind. An intuitive ordering process consisting of only four stages makes ordering personalised products easy even for the untrained user. The attractive, modern design helps put the customer at ease during the ordering process. From a technical point of view, the software is search engine friendly.

Integrations
uTypia has a great deal of expertise in the field of integrations and may be linked to all the popular e-procurement systems. The process of ordering personalised products becomes more efficient, saving those involved in the process both time and money. Shop-within-a-shop integrations are also becoming more popular. Resellers are able to offer personalised products in their shops. It is possible to integrate uTypia so that the user is only guided to uTypia for the personalisation of their products (e.g. stamp layout).

uTypia Page
uTypia Page is the first step in the creation of a professional on-line presence for your company. This web-site solution impresses with its many modern designs developed by web-design specialists and the ideal technical prerequisites for search engine optimisation. The content management system is easy to use and helps you to keep all the information (text, images, links, etc.) up to date. It is possible to integrate any existing uTypia shops into uTypia page.

> COMMENTS_

The textplate sizes indicted are upper limits and do not necessarily correspond to the actual size of the impression. This may be marginally different depending on the production method used for the textplate. Colour designs depend on a wide range of influencing factors, such as paper, humidity, monitor settings, etc. It is possible that individual colour systems may vary. All data provided are Trodat definitions.
We recommend you carry out print proofs and sample stamps. The impressions and logos shown are entirely fictitious. Any similarities to existing companies and real people are purely coincidental.
We reserve the right to make changes to the products.
